

The channel on which residents view City of Siloam Springs Board of Directors Meetings is changing!

Our new home will be Channel 245.

Siloam Springs cable channel 4 is moving to a new location in the cable channel line-up. The move is a result of Cox Communication's upgrade to their cable system to digital technology. Siloam Springs Channel 4 will be relocated to digital channel 245 on June 29, 2010. In the coming months, we hope to expand programming on this city operated channel to include the broadcast of other meetings, community announcements and events. Contact Stacy Vaughn, Communication Director at (479) 238-0905 or svaughn@siloamsprings.com for more information.

Depending on your TV's technology, you may need an extra piece of equipment to see our channel. This equipment is provided by Cox Communications and is *FREE* for a two year period for cable subscribers. The following provides a basic guide to four common TV configurations.

	+		=	No extra equipment needed
Pre-2004 CRT TV		(EXAMPLE. Your box may vary.) Cox Communications issued Digital Cable Receiver or DVR		
	+		=	No extra equipment needed
LCD or Plasma TV		(EXAMPLE. Your box may vary.) Cox Communications issued Digital Cable Receiver or DVR		
	+	No extra box; TV is plugged directly into cable from wall	=	Cox Communications will provide <i>ONE</i> Digital Converter Box for you, <i>FREE OF CHARGE</i> for two years. You must pick this up at their office.
Pre-2004 CRT TV				
	+	No extra box; TV is plugged directly into cable from wall	=	No extra equipment needed, but you may need to "rescan" your TV to pick up the new channel.
LCD or Plasma TV				

If you have technical questions or you need to pick up a Digital Box, call Cox Communications at (479) 524-6400 or visit their Siloam Springs Office at 160 E. Highway 412.
