

BE NICE AND LOOK TWICE

Remember:
Pedestrians have the right-of-way at all intersections and marked crosswalks.

MOTORISTS LOOK OUT

- **STOP** before crosswalks and the line that marks them.
- Cars do not belong in crosswalks, pedestrians do.
- Motorists must "look out" for drivers, pedestrians, and bicyclists.
- Turning vehicles "must yield" to pedestrians crossing on the green light.

PEDESTRIANS LOOK OUT

- Before stepping off a curb look left, look right, look left again over your shoulder.
- It is the pedestrian's responsibility to yield to cars when crossing a road without crosswalks.
- If the "Don't Walk" signal is flashing, finish crossing, but don't start to cross.
- At the intersection **STOP!** Look over your shoulder for cars turning. When all is clear, walk straight across the street, not on a diagonal.

PEDESTRIAN SAFETY TIPS

- Avoid walking alone if you can.
- Wear reflective clothing if you must walk at night.
- Always walk facing traffic.
- Always use crosswalks where provided.
- Stop, Look, and Listen; then check twice.
- Always follow traffic control devices. (Walk, Don't Walk signs)
- Always be alert to traffic and your surroundings.
- Check for traffic before crossing, even if the sign says walk.
